Change in management consulting industry – Capacent and UnitedLog Consulting join forces

Capacent and UnitedLog Consulting are joining forces to form a leading management consulting company in Sweden and Finland. Together with Capacent's activities in the other Nordic countries, and with its 275 employees, Capacent offers the market an alternative to the global consulting firms.

With operations in Sweden, Finland and China, UnitedLog Consulting has a strong position in Operational Excellence and Supply Chain Management consulting services.

The merger entails that Capacent will acquire the consulting business – UnitedLog Consulting – from UnitedLog Group. Through the deal, UnitedLog Group will become a major owner of Capacent in Sweden and Finland.

As a result of the deal, Capacent's operations in Sweden in Finland will include a total of 100 employees.

"UnitedLog Consulting's orientation and strong position in Supply Chain Management strengthens Capacent's management consulting offering. Together we will have a comprehensive offering, and Capacent will now have a clear position as the largest and leading Operational Excellence consultancy in the Nordic countries", said the two companies' boards' in a joint statement.
